Cool Boss™ Air Coolers Keep Shops Cool with Ultimate Range

Cool Boss evaporative air coolers provide instant comfort solutions by using water evaporation to instantly chill areas at a fraction of the cost of traditional air cooling methods. The Cool Boss CB-36 is equipped with five Honeycool™ evaporative media pads that soak up water like a sponge and act like a pre-chiller for the incoming air. The resin-covered honeycomb with its prismatic pass-through hollows allow air to pass through which results in evaporation. It is this phase transition of liquid water to chilled vapor that turns hot stuffy hot air into fresh cool pleasantness. The touch control variable fan-speed settings and water-flow controllers allow you to precisely deliver just how much cool air you need and how much water flow is desired to lengthen the running time between fill-ups.

OSHA law requires workplaces to be free of heat exposure risks. With Cool Boss not only will your workers be happy and healthy, you will also see an increase in productivity. Win, win.

The CB-36 is a beast that was designed for large-space commercial and industrial applications. This Air Cooler creates a more comfortable and productive work environment while using up to 70% less energy than conventional mechanical cooling systems. It's equipped with a massive 115-gallon auto-refilling reservoir, so whether you have it hooked up to a garden hose for auto-refilling, or industriously in use where no garden hose exists, it can run for hours without the need for refilling. With an air delivery of 10,440 CFM and coverage of 5,220 square feet, it takes on large spaces effectively and efficiently.

Features

- Blue Flex™ axial-flow fan
- Directional venturi fan cone
- Remote control with built-in holder
- Automatic water source shutoff
- Honeycool™ evaporative media
- Bluetooth™ audio player
- Soft-touch LED controls
- Water inlet flow control
- Antibacterial housing
- Space-saving design
- LED floodlight
- Built-in timer
- GFCI plug

Specifications

Fan Diameter	36" / 914 mm
Fan Speed	Variable
Max. Airflow	10,440 CFM
Louver Style	Fixed Venturi Fan
Water Consumption	1.75 - 3.75 Gal / Hr
Water Capacity	115 Gal (435 L)
Dimensions	65" W x 44" D x 85" H (1,651 mm x 1,118 mm x 2,159 mm)
Weight	398 lbs. (181 kg) - 1,355 lbs. (615 kg)
Media Dimensions (ea)	46" H x 12" W x 5" D (1,168 mm x 305 mm x 127 mm)
Effective Cooling Area	5,220 sq. ft.
Casing Construction	Rotomold Polyethylene
Power Cord Length (ft)	15'
Noise	62 - 75 dB
Power Supply	110V / 60Hz / 1Ph (SKU# 5150153) 208-230V / 50-60 Hz / 1Ph (SKU# 5150178)
