## Cooling Made Easy for Work Areas and Outside Spaces

The CB-14 is a space-saving portable evaporative air cooler that is ideal for cooling off work areas and outdoor spaces. It has a low operating cost that makes it the perfect inexpensive-to-operate air conditioning system; typically for less than a dollar per day. Large, easy-roll casters allow you to move your Cool Boss to various locations around the shop.

The portable Cool Boss CB-14 reduces surrounding air temperatures by as much as 26 degrees helping transform hot, stuffy spaces into cool, breezy retreats. Powered by a 1/3 HP motor, the 14" diameter Blue Flex™ fan pulls more air at idle and reduces engine drag at higher rpm's for better performance, energy efficiency and economy.

OSHA law requires employers to make sure that their workplaces are free from heat exposure risks. With Cool Boss your employees will be healthy and productive.

The CB-14 evaporative air cooling system with its abundant 15.6-gallon reservoir delivers an endless supply of cool, breezy air to a directed area. Honeycool™ evaporative media pads provide a very durable, and long-lasting cooling solution. Warm air passes through the water-soaked honeycomb pads and transforms them into constantly flowing chilled air, providing instantly cooler surroundings. Automatic swing-louvers that oscillate back and forth help deliver a wide swath of cooling area coverage, as much as 850 square feet. How much cool air volume you want is easily controlled by three fan-speed settings.

## Features

- Oscillating auto-swing louvers
- Blue Flex™ axial-flow fan
- 15.6-gallon reservoir
- Remote control with a convenient holder
- Automatic water source shutoff
- Honeycool™ evaporative media
- 3-speed fan
- Antibacterial housing
- Space-saving design
- GFCI plug
- UL® certified
- Water inlet flow control
- User-friendly controls

## Specifications

Fan Diameter	14" / 356 mm
Fan Speed	3-Speeds
Airflow	2,300 CFM
Style	Swing Louvers
Water Consumption	0.75 - 1.25 Gal / Hr
Water Capacity	15.6 Gal (59 L)
Dimensions	22" W x 30" D x 47" H (559 mm x 762 mm x 1,194 mm)
Weight	79 lbs. (36 kg)
Media Dimensions (ea)	9" W x 4" D x 25" H (229 mm x 102 mm x 635 mm)
Effective Cooling Area	850 sq. ft.
Casing Construction	ABS Plastic
Power Cord Length (ft)	15'
Noise	64 -72 dB
Power Supply	110V/60 Hz (Optional 208-230V)*

\*Optional voltage available upon request.
